

Aware: Your Partner in Managing Every Cloud Challenge

Aware is an expert partner specializing in working with Amazon Web Services (AWS) to help businesses migrate to the cloud seamlessly and securely. While AWS offers powerful cloud capabilities, it can be complex and requires specialized knowledge—something many organizations might lack. With Aware's team of experts, we provide guidance, oversee installation, and support throughout the migration process, allowing your business to focus on its core objectives without worrying about technical complexities.

Aware offers comprehensive AWS Cloud solutions tailored to help businesses of all sizes adapt and advance efficiently. We are here to solve challenges and enhance your systems with the following services:

1. Cloud Migration

We facilitate the safe and efficient migration of your systems and data from traditional infrastructures to the AWS Cloud platform, simplifying the process and minimizing the time required for migration.

2. Cloud Architecture Design

We design cloud architectures tailored to your business, ensuring flexibility, security, and scalability to support future growth.

3. Managed Cloud Services

Our all-inclusive managed cloud services include system performance optimization, proactive monitoring, and issue resolution, ensuring seamless cloud operations.

4. Cloud Backup & Disaster Recovery

We create comprehensive AWS Cloud backup plans to ensure your critical data is never lost. Additionally, we implement disaster recovery systems to quickly restore systems and data during unexpected events, minimizing downtime and maintaining business continuity.

5. DevOps Implementation

We optimize your software development and delivery processes with AWS-based DevOps solutions, enabling faster and more continuous operations.

6. Local Billing

Aware offers AWS cost management through local billing in Thai Baht, reducing complications with tax and payment processes. Customers can receive valid tax invoices from Aware, an Advanced Tier Services Partner of AWS in Thailand. These invoices can be used for expense reporting and corporate tax purposes, including a 3% withholding tax deduction for AWS services billed by Aware each month—just like other domestic services.

AWS Thailand Region's Offered Services

Compute

-  Amazon Elastic Compute Cloud (EC2)
-  Amazon EC2 Auto Scaling
-  AWS Lambda
-  Amazon Elastic Container Service (ECS)
-  Amazon Elastic Kubernetes Service (EKS)
-  Amazon Elastic Container Registry (ECR)
-  AWS Batch
-  AWS Fargate

Storage

-  Amazon Elastic Block Store (EBS)
-  Amazon Simple Storage Service (S3)
-  Amazon Elastic File System (EFS)

Networking

-  Amazon CloudFront
-  Amazon Virtual Private Cloud (VPC)
-  Amazon Route 53
-  AWS Direct Connect
-  AWS PrivateLink
-  Site-to-Site VPN
-  AWS Cloud Map
-  Elastic Load Balancing (ELB)
-  AWS Transit Gateway

Database

-  Amazon Aurora
-  Amazon Relational Database Service (RDS)
-  AWS Database Migration Service (DMS)
-  Amazon ElastiCache
-  Amazon DynamoDB

Identity

-  AWS Identity and Access Management (IAM)
-  AWS Key Management Service (KMS)
-  AWS Certificate Manager
-  AWS Resource Access Manager (RAM)

Messaging

-  Amazon Simple Queue Service (SQS)
-  Amazon API Gateway
-  Amazon Simple Notification Service (SNS)
-  Amazon EventBridge
-  AWS Step Functions

Security & Governance

-  AWS Config
-  Amazon CloudWatch
-  Management Console
-  AWS CloudFormation
-  AWS Systems Manager
-  AWS Health Dashboard
-  AWS Trusted Advisor
-  AWS CloudTrail
-  AWS Organizations
-  AWS Secrets Manager

Analytics

-  Amazon Redshift
-  Amazon Elastic MapReduce (EMR)
-  Amazon Kinesis Data Streams
-  Amazon OpenSearch Service

Others

-  AWS Marketplace
-  AWS Support
-  AWS Artifact
-  AWS DataSync
